PROFILE

Detail-oriented Full Stack Developer skilled in building scalable MERN applications, real-time systems, and responsive UIs. Experienced with secure authentication, RESTful APIs, and database-driven applications. Strong foundation in Java, JavaScript, and software engineering principles with a focus on clean, efficient, and maintainable code. Passionate about problem-solving, data-driven development, and continuous learning.

EDUCATION

SRM Institute of Science and Technology   Delhi NCR, India
Bachelor of Computer Applications (BCA)   2023-2026

- Pursuing BCA (Final Year, 6th Semester) with a current CGPA of 7.70.
- Relevant coursework: Data Structure, Web Technologies, DBMS, Software Engineering.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python (Basic)
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Bootstrap
- **Backend & Frameworks:** Node.js, Express.js, REST
- **Databases:** MongoDB, SQL
- **Developer Tools:** Git, GitHub, VS Code
- **Testing Tools & API:** Postman, Thunder Client
- **Data & Analytics Tools:** Excel, Power BI
- **Data Visualization:** Power BI Dashboards, Charts, Reports, Data Storytelling

EXPERIENCE

Intern – Java Full Stack Developer   Remote (Online)

Zidio Development   April 2025 – July 2025

Project Highlights:

- Worked on *Employara*, a full-stack job portal platform for job posting, candidate applications, and recruiter workflows.
- Developed responsive and user-friendly frontend screens using React and Vite.
- Contributed to core product features including authentication, job listings, filtering, and dashboard components.

Key Responsibilities:

- Built and optimized frontend modules using React.js, Vite, Tailwind CSS, and integrated REST APIs.
- Collaborated remotely with backend developers to connect UI components with Node.js/Express APIs.
- Developed reusable components, managed state, and improved overall UI/UX.
- Participated in online agile meetings, project planning, and review discussions.
- Debugged UI issues, tested API flows, and ensured smooth component functionality.
- Researched best practices to enhance frontend performance and code quality.

CERTIFICATIONS

- FULL Stack – Apna College
- DSA with Java – Apna College
- React.js – Scaler

PROJECTS

Wanderlust – Travel & Accommodation Booking Platform

- Developed a full-stack travel platform with property listings, CRUD operations, and secure user authentication (login/signup).
- Added booking management features and integrated Mapbox APIs for location-based search and interactive maps.
- **Tech Stack:** REST API using Node.js, Express, MongoDB, JavaScript
